Rao Emandi, M.D.  
G. Ramappa, M.D.  
& other past presidents

Dear Sir/Madam:

We are requesting your support for the Medical Symposium and educational activities of FAPI. Our organization is the Florida Chapter of AAPI, which is the second largest national organization of physicians, after AMA. FAPI is made up of 550 leading physicians practicing in Pinellas, Hillsborough, Hernando, Sarasota, Polk, Lake and Citrus county of Florida West Coast. Our goal is to update physicians about the newer medications, the latest medical research and clinical applications and ultimately help enhance patient care in our community.

Topics of educational significance are selected based on Needs Survey administered at such conferences. Speakers are selected from leading experts in their respective specialties.

Your support to these independent educational activities is invaluable.
